SOLLAS COMPANY PROFILE

Sollas, a family-owned Dutch company, has established an enviable reputation of manufacturing highly reliable packaging machinery.

Sales, R&D, final assembly and after sales service are co-ordinated from the head-office in Wormer, close to the Dutch capital of Amsterdam, and the international airport Schiphol.

The manufacturing facility is located in the eastern part of The Netherlands, near the German border. Sollas also has its own branch offices in France, Germany and United Kingdom. Backed by an extensive international network of some 50 agents and distributors worldwide, the technical and customer services provide solid after-sales care and support.

The entire Sollas organization comprises of 150 people.

With over a half a century's experience and supplying thousands of custom-designed solutions, Sollas is setting new standards in packaging technology.

INDUSTRIES

Sollas machinery is used in a wide range of industries such as cosmetics/perfumery, pharmaceutical, stationery, cards, digital-media, tobacco and food processing industry.

Sollas offers standard and custom built solutions in all the above industries.

The Sollas organization builds on knowledge of past and present experiences compiled from around the world to meet customer's individual requirements. This knowledge is then converted into an innovative product range with state-of-the art technology with enhanced performance.

Modular designed on-demand packaging solutions in combination with Sollas' excellent packaging quality are an asset to the industries.

To complete the packaging solutions, Sollas has developed many specific handling systems for transferring, stacking and tilting different types of products.

Continual improvement and development maintains the high standards that are demanded by Sollas and secure a leading position in the packaging industry.
