

Fillflex™ other accessories

Equipment and accessories for the Fillflex system

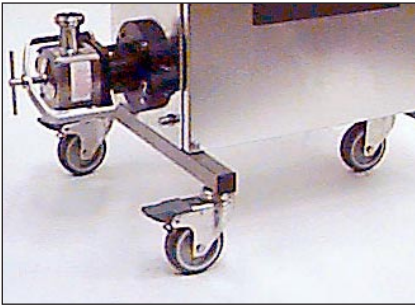

FILLFLEX

– the flexible filling machines

There are a variety of Fillflex accessories that will make your filler more flexible and efficient. By putting your Fillflex Compact on a mobile trolley you will, for instance, have a filler just as mobile as the larger Fillflex Split Mobil. A feed hopper (with or without heating jacket) facilitate filling of viscous products. A starting pedal frees your hands when filling etc.

Wheels

For Fillflex Compact TF5500C.

Order number:
TFA10115
